# Lovely Professional University, Punjab

## BONAFIDE CERTIFICATE

Certified that this project report **"……….THE BOOK STORE…………….."**

is the bonafide work of **"………………...ASHMIT RAJ.………………………...."**

who carried out the project work under my supervision.

**SIGNATURE**

Shivani Sharma
**SUPERVISOR**

**SIGNATURE**

Dr. Harminder Singh Saggu
**HEAD OF THE DEPARTMENT**

# ACKNOWLEDGEMENT

The satisfaction that accompanies the successful completion of this project would be in complete without the mention of the people who made it possible, without whose constant guidance and encouragement would have made efforts go in vain. I consider myselfprivileged to express gratitude and respect towards all those who guided us through the completion of this project.

I convey thanks to my project guide me **Ms. Shivani Sharma** of Computer science and Engineering Department for providing encouragement, constant support, and guidance which was of a great help in completing this project successfully.

Last but not the least, we wish to thanks our **parents** for financing our studies in this collage as well as constantly encouragement us to learn engineering. Their personal sacrifice in providing this opportunity to learn engineering acknowledged.

# ABSTRACT

Greetings from The Book Store, a place for book lovers and other types of adventurers. This is your pit stop with a pulsating collection of books from all sweeping ranges, such as classical satisfaction, bestseller contemporary with all other works in between.

Read and socialize with bookermates coz this is a bookstore. Sign up for events and conversations in book celebratory occasions such as book signings and discussions in book clubs. Our staff is well trained and always has time to provide assistance in selection of a good book for reading or a gift.

 At The Book Store, it is our firm conviction that each book comes with a unique narrative, and we are looking forward to helping you find yours. We'd love to see you in our store today, and hope that you will be an active participant in our readership!

# TABLE OF CONTENTS

# Introduction

We present to you the project documentation for "The Book Store", a conceptual-driven online portal for book solution providers and readers. The site serves as a venue for people wishing to find and purchase any books – academic or non-academic alike – who may do so from the site. The Book Store is envisaged to be a center that encourages the patronage of books and reading especially by people from different age groups.

The website is designed in such a way that the users will be able to make easy transitions from one point to another, to the extent of JEE Mains books, 12th-grade textbooks, engineering books, and other relevant sections. There are images and descriptions of the price ranges in every decoded book for a better understanding of the customers and what they wish to buy.

In addition, there are some more important features like search, shopping bags, and important page links that help for the better use of the system. The graphical interface design is built with a recent touch incorporating colorful images and interesting font styles thus making the site attractive and also serving its intended purpose.

Furthermore, apart from the e-commerce elevator, The Book Store also focuses on building the community by informing members about events, providing them with book reviews, and offering them contact for questions. This demonstrates its aim of conserving reading culture and availing books to the masses and thus sits at the heart of all reading fulfilments.

# TECHNOLOGIES USED

Creating an engaging and functional e-commerce website like Gaming Sphere involves utilizing a combination of technologies. In this case, HTML, CSS, and JavaScript serve as the foundational building blocks of the website, each contributing unique features and functionalities that enhance user experience.

## HTML (Hypertext Markup Language)

HTML is the backbone of any website, providing the structure and semantic meaning to web content. In Gaming Sphere, HTML is used to create the layout of the site, including the homepage, product listings, and checkout pages. Key features include:

1. **Semantic Elements**: Utilizing elements like <header>, <nav>, <section>, and <footer> helps improve the site's accessibility and SEO (Search Engine Optimization). This organization allows search engines to better understand the content and context of the page.
2. **Forms and Inputs**: HTML forms are critical for user interactions, such as creating accounts, logging in, and processing purchases. By using various input types (e.g., text, email, number), the site ensures that user data is collected efficiently.
3. **Multimedia Integration**: HTML supports embedding images, videos, and audio files, allowing Gaming Sphere to showcase game trailers, screenshots, and product details effectively.

## CSS (Cascading Style Sheets)

CSS is responsible for the presentation and layout of the website. It defines how HTML elements are displayed on the screen, enhancing the visual appeal and user experience. Key contributions of CSS in Gaming Sphere include:

1. **Styling and Layout**: CSS is used to create visually appealing designs with custom fonts, colours, and spacing. The responsive design ensures that the website looks great on various devices, from desktops to smartphones.
2. **Flexbox and Grid Systems**: These CSS features allow for flexible and responsive layouts. By using Flexbox for navigation and Grid for product listings, the site adapts seamlessly to different screen sizes, providing an optimal browsing experience.
3. **Animations and Transitions**: CSS enables subtle animations and transitions that enhance interactivity, such as hover effects on buttons and smooth loading animations, making the user experience more engaging.

## List of Tables

## List of Figures

| Figure No. | Title | Description |
| --- | --- | --- |
| Figure 23 | Engineering Book Cover (Fundamentals of Physics) | Cover of "Fundamental of Physics" by Halliday D. |
| Figure 24 | Engineering Book Cover (Introduction to Programming with C++) | Cover of "Introduction to Programming with C++ for Engineers". |
| Figure 25 | Engineering Book Cover (Discrete Mathematics) | Cover of "Discrete Mathematics and Its Applications" by Dr. Kamala Krithivasan. |

# List of Symbols, Abbreviations, and Nomenclature

| Symbol/Abbreviation | Description |
| --- | --- |
| JEE | Joint Entrance Examination |
| HTML | Hypertext Markup Language |
| CSS | Cascading Style Sheets |
| JS | JavaScript |
| NCERT | National Council of Educational Research and Training |
| ISBN | International Standard Book Number |
| ₹ | Indian Rupee (Currency) |
| HC | H.C. Verma (Author of physics books) |
| PW | Physics Wallah (Tutoring platform) |
| CENGAGE | Cengage Learning (Publisher) |
| i.e. | Id est (that is) |
| e.g. | Exempli gratia (for example) |
| Part 1 / Part 2 | Indicates different volumes of the same book |
| navbar | Navigation Bar |
| bx | Boxicons, a library of icons |
| .wrapper | Class for the main container of the login form |
| fa | Font Awesome, a library for scalable vector icons |
| .social_icon | Class for social media icons |
| font-awesome | A library for scalable vector icons |
| .logo | Class for the logo section |
| .btn | Class for buttons |
| .remember-forgot | Class for the section containing remember me checkbox and forgot password link |
| .review_icon | Class for review rating stars |
| .card_top | Class for the top section of the review card |
| .review_card | Class for individual review cards |
| .reviews | Class for reviews section |
| navmenu | Navigation Menu |
| Advanced | Refers to higher-level content or studies |
| Search-box | Input box for searching |

# WORKING

1. Home Page

The home page describes the services offered and has links to main sections, such as Book, New Arrival, Review, and Contact Us.

The user can browse through a slide of featured book for study to easily access top picks.

Bar navigation has been improved. The fixed navbar ensures that any page can be accessed in one click.

Page 2: Books

In the Book Section, JEE Mains – Advanced, Boards Level and Engineering book are available.

Users can search for books according to their domain, interest, Competition Exam, and class type. Further development would include real-time book tracking and cart features.

Upon selecting options, users are directed to a booking summary that displays total costs, with an option to modify selections before Purchasing the Books.

Page 3: Reviews Section

The Reviews section highlights customer feedback and testimonials, providing insights into the reading experience at our bookstore. Users can browse through various reviews, each featuring a title, author, and detailed commentary from fellow readers.

Each review includes a rating system to help prospective customers gauge the quality of the books. By clicking on each review, users can access more information about the reviewer and the book discussed, along with images that enhance the overall experience. This interactive platform encourages community engagement and helps users make informed choices about their next read.

**\*Future upgrades may include live chat and chatbots for answering users immediately.\***

4. New arrival **\*Future Upgrades\***

The New Arrivals section showcases curated latest books, including comics on cartoons, and competitive exams like SCC-CGL, UPSC, CLAT, and GATE.

Users can view new book details by clicking on each option, with clear descriptions and images to help in decision-making.

Footer with Social Media Links

It has all social media links so that users can connect with the booking service on Facebook, Twitter, LinkedIn and Instagram.

In the footer, there also exists a contact information section and links to quick-access pages.

The use of CSS media queries allows the website layouts to adjust according to the screen sizes, providing users with smooth navigation and accessibility on all devices.

**User Experience and Navigation**
A light theme makes it a clear view site with no difficulty for the eyes.

The hover effects, and CTAs are very clear and concise. Also, an organized content layout that leads a user easily to any specific section.

**Future Development**
This website has been built with room for expansion of additional functionalities like real-time tracking APIs, user accounts, and personal booking history.

Maintenance plans need to ensure that the site is regularly upgraded to stay efficient and updated according to the needs of the user.

# Reviews

**Mayank Sinha**

If you're a book lover seeking solace in the midst of the chaos of everyday life, look no further than this charming bookstore. From the moment you step inside, you're greeted by shelves overflowing with literary treasures waiting to be discovered. The cozy ambiance invites you to lose yourself among the pages of your favorite novels while sipping on a warm cup of tea.

★★★★

**Riya Srivastwa**

Stepping into this bookstore feels like entering another world entirely a world where stories come to life and imagination knows no bounds. The shelves are lined with tales waiting to be told, from timeless classics to the latest bestsellers. Whether you're in search of adventure, romance, or mystery, you're sure to find it here. The staff's passion for literature is infectious, and their recommendations never disappoint.

★★★★½

**Gargi Sinha**

Community Hub for Book Enthusiasts This bookstore isn't just a place to buy books it's a thriving community hub where book enthusiasts come together to share their love of literature. From lively book club discussions to author signings and themed events, there's always something exciting happening here

★★★★½

**Shivani**

Tucked away amidst the hustle and bustle of the city, this bookstore is a true literary oasis for weary souls in need of escape. The moment you step through the door, you're enveloped in a sense of calm and serenity. The shelves are stocked with a carefully curated selection of books, ranging from beloved classics to hidden gems waiting to be unearthed.

# CONCLUSION

The code given creates a reader-friendly and attractive looking bookstore website with all the necessary attributes. The menu bar allows easy access to the most important pages or sections like Home, Books, New Arrival, Reviews, and Sign In. Such an arrangement improves user experience as it allows easy movement.

The section with a login form is modern in style as the area for entering user details is neat and for the purpose intended. It has a username and password fields, remember username and password options and links to lost password page.

The reviews section contains feedback from existing customers which adds more value and motivates such readers to visit the services offered in the bookstore. Each review is accompanied by a star rating system that displays the level of satisfaction of the users in a pictorial form.

The use of Font Awesome and Boxicons libraries makes it possible to add vector icons which add to the graphical content of the website and enhance the look of the site. Using a CDN makes sure that there are no delays in bringing out the site and also aids in better use of resources.

In summary, this code is quite helpful in developing a bookstore website with special considerations on functionality and the attractive nature of the page in order to create a suitable setting for ardent book users.
